

**TECHNICAL DATA SHEET***Revision date: 10.10.2024***SILICONE REMOVER**

|                                 |   |
|---------------------------------|---|
| <b>Article number:</b>          | <b>13507, 13508</b>   |
| <b>Colour:</b>                  | transparent   |
| <b>Intended use:</b>            | Car refinishing product/ Cleaning agent/ Cleaner  |
| <b>General characteristics:</b> | Cleaning and degreasing agent for all metallic and polymer materials. It should be applied by spraying or brushing with a paint brush, brush, a cloth, or a sponge. |

**APPLICATION PROCESS**

Before use, carefully read and observe the warning texts on the label!

**Processing conditions:**

Please only use in an adequate ventilated environment with an ample supply of fresh air. Processing temperature should be at least +12°C and max. air humidity should not exceed 80%.

**Processing tips:**

- Before using the Silicone remover, ensure the surface is free of dust.
- Soak a clean cloth with an adequate amount of Silicone remover and thoroughly rub the surface to degrease it.
- Afterward, wipe the surface thoroughly with a clean, dry cloth.
- Wait until the Silicone remover evaporates completely before applying the coating.

**ATTENTION**

Use on well cured coatings only. Removes 1K coatings.

**Shelf life:**

36 months, if stored in tightly closed original containers

This release replaces all eventually earlier issued versions.
