

TECHNICAL DATA SHEET Date of issue 18.05.2018

Nitrile gloves Super Grip

Article number: 48901, 48902, 48903

Product Description:

The Chamäleon Nitrile Gloves Super Grip are very flexible, silicone free, and unpowdered. They are solvent resistance and prevent many kinds of skin irritation. These disposable gloves are universal-fit and can be worn on the left as well as on the right hand. These gloves have a special structure on the fingertips for an excellent grip on wet and oily surfaces. The special structure on the fingertips, together with the perfect seamless fit, ensures that these gloves offer a secure grip while leaving the fingers sensitive to touch. This is very important when doing delicate work, for example; spray-painting in a workshop or handling syringes (needles) in a hospital. Protect from heat and direct sunlight. Store in dry conditions.
